

To our customers,

We have spent the last several days and weeks learning about the coronavirus (COVID19) and how it is impacting our world. For Beacon & Bridge, that means understanding how it affects our employees, customers, communities, and then making the necessary adjustments to our operations.

We want you to know that your health and safety is our first priority.

We have also taken pride in our clean and well-run stores, and we know this is more important even right now. On top of our daily cleaning procedures we are adding additional cleaning duties. This means more time will be spent cleaning our stores, including cleaning surfaces, like checkout counters, touchscreens, door handles at least every 30 minutes. Like many others, we are taking guidance from the Centers for Disease Control's (CDC), which recommends cleaning as one of the most important preventive measures we can take.

We will be adding hand sanitizer at the entrance/exit doors and at all cash registers. Sanitizing wipes are near each workstation and counters so that employees can keep them continuously clean.

We have shared specific instructions with our employees on the importance of washing their hands and staying home if they are infected or are returning from an area of the world identified as posing a risk.

You have our commitment to keep our stores open so we can provide a safe and clean environment to serve you and your families.
